To Whom It May Concern

We are grateful for your assistant on implementation of Risk Assessment (RA) and Safety Management System (SMS). All the documents and materials have been delivered on 15 August 2008.

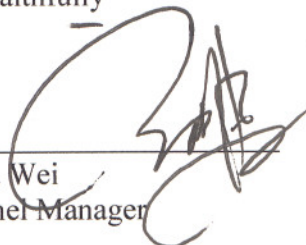

The system provides us for goal setting, planning and measuring performance. It sets out clear management commitments, direction and approaches for workplace safety and health. It also helps us to identify the source of risks and shall take all reasonably practicable steps to eliminate any foreseeable risk to any person who may be affected by the undertaking in the workplace.

We believe the RA and SMS will add value to our businesses by helping to improve overall performance. Once again, we would like to thank you for your afford and assistants to implement the systems.

We look forward for your assistant in the other aspects.

Thank you.

Yours faithfully

  
Koh Ta Wei  
Personnel Manager
